8 UNITED STATES DISTRICT COURT  
9 NORTHERN DISTRICT OF CALIFORNIA  
10 SAN FRANCISCO DIVISION

11  
12 IN RE: VOLKSWAGEN "CLEAN  
13 DIESEL" MARKETING, SALES  
PRACTICES, AND PRODUCTS  
14 LIABILITY LITIGATION

MDL No. 2672 CRB (JSC)

The Honorable Charles R. Breyer

15 This Document Relates to:  
16 Porsche Gasoline Litigation

**UNOPPOSED MOTION FOR  
PRELIMINARY APPROVAL OF CLASS  
SETTLEMENT AND DIRECTION OF  
NOTICE UNDER FED. R. CIV. P. 23(e)**

**TABLE OF CONTENTS**

	<b>Page</b>
I. INTRODUCTION .....	1
II. BACKGROUND AND PROCEDURAL HISTORY .....	3
A. Factual background: Plaintiffs alleged long-standing practices by the Defendants to manipulate fuel economy and emissions tests for the Class Vehicles.....	3
B. Procedural background: Plaintiffs investigated their claims through a comprehensive discovery and technical vehicle testing process.....	4
C. The Settlement process: The Parties engaged in a lengthy, evidence-based negotiation.....	6
III. SUMMARY OF SETTLEMENT TERMS .....	8
A. The Settlement Class definition .....	8
B. Settlement Benefits to Class members .....	8
C. Notice and Claims Administration.....	10
D. Attorneys’ Fees, Expenses, and Service Awards .....	10
IV. LEGAL STANDARD FOR PRELIMINARY APPROVAL AND DECISION TO GIVE NOTICE.....	11
V. ARGUMENT .....	11
A. The Court will be able to certify the proposed Class for settlement purposes upon final approval. ....	11
1. The Settlement Class meets the requirements of Rule 23(a). ....	12
a. Rule 23(a)(1): The Class is sufficiently numerous. ....	12
b. Rule 23(a)(2): The Class Claims present common questions of law and fact.....	12
c. Rule 23(a)(3): The Settlement Class Representatives’ claims are typical of other Class members’ claims. ....	13
d. Rule 23(a)(4): The Settlement Class Representatives and Class Counsel have and will protect the interests of the Class. ....	14
2. The Settlement Class meets the requirements of Rule 23(b)(3). ....	15
a. Common issues of law and fact predominate. ....	15
b. Class treatment is superior to other available methods for the resolution of this case.....	17
B. The Court should appoint Lead Plaintiffs’ Counsel as Interim Settlement Class Counsel under Rule 23(g)(3). ....	18
C. The Settlement is fair, reasonable, and adequate. ....	18
1. Rule 23(e)(2)(A): Class Counsel and the Settlement Class Representatives have and will continue to zealously represent the Class. ....	19
2. Rule 23(e)(2)(B): The Settlement is the product of good faith, informed, and arm’s-length negotiations. ....	19

**TABLE OF CONTENTS**  
**(continued)**

	<b>Page</b>
3. Rule 23(e)(2)(C): The Settlement provides substantial compensation in exchange for the compromise of strong claims. ....	22
a. The Settlement mitigates the risks, expenses, and delays the Class would bear with continued litigation. ....	24
b. Class members will obtain relief through a straightforward claims process. ....	26
c. Counsel will seek reasonable attorneys’ fees and costs. ....	26
4. Rule 23(e)(2)(D): The Proposed Settlement treats all Class members equitably relative to one another. ....	28
5. The Proposed Settlement merits approval under this District’s Procedural Guidance. ....	29
a. Preliminary Approval Guidance (1)(a) and (c): There are no meaningful differences between the litigation and Settlement Classes, and the released claims are consistent with those asserted in the Complaint. ....	29
b. Preliminary Approval Guidance (1)(e): The Settlement Recovery mirrors that available if Plaintiffs had prevailed in litigation on the merits. ....	30
c. Preliminary Approval Guidance (1)(g): A substantial number of Class members are expected to participate through a streamlined claims program. ....	31
d. Preliminary Approval Guidance (1)(h) & (8): Unclaimed Settlement funds will be redistributed to Class members and then to environmental remediation efforts and will not revert to Defendants. ....	31
e. Preliminary Approval Guidance (3)-(5): The proposed Notice Plan comports with Rule 23, Due Process, and this District’s Procedural Guidance. ....	32
f. Preliminary Approval Guidance (7): Plaintiffs will seek modest incentive awards for the Settlement Class Representatives. ....	32
g. Preliminary Approval Guidance (9): The Parties have proposed a reasonable schedule for the Settlement Approval Process that provides Class members sufficient time to exercise their rights. ....	32
h. Preliminary Approval Guidance (10): The Settlement complies with the Class Action Fairness Act (“CAFA”). ....	33
i. Preliminary Approval Guidance (11): Information about past distributions in comparable class settlements. ....	33
D. The Proposed Notice Plan provides the best practicable notice. ....	33
VI. CONCLUSION .....	35

**NOTICE OF MOTION AND MOTION**

TO ALL THE PARTIES AND COUNSEL OF RECORD:

PLEASE TAKE NOTICE that on Friday July 22, 2022 or at such other date and time as the Court may set, in Courtroom 6 of the United States District Court for the Northern District of California, located at 450 Golden Gate Avenue, San Francisco, California, Lead Counsel and the Plaintiffs’ Steering Committee, on behalf of a proposed Settlement Class of owners and lessees of certain Porsche gasoline vehicles, will and hereby do move the Court for an order granting preliminary approval of the Class Action Settlement and directing notice to the Class under Fed. R. Civ. P. 23(e)(1); appointing Interim Settlement Class Counsel and Class Representatives under Fed. R. Civ. P. 23(g)(3); and scheduling a final approval hearing under Fed. R. Civ. P. 23(e)(2).

Plaintiffs notice this motion for Friday July 22, 2022 in accordance with Civil Local Rule 7-2(a) and this Court’s Standing Orders. However, the parties are prepared to present the proposed Settlement to the Court on an earlier hearing date and time at the Court’s convenience, or for the Court to decide this matter on the papers, if the Court is inclined to do so.

**MEMORANDUM OF POINTS AND AUTHORITIES**

**I. INTRODUCTION**

The proposed Settlement before the Court resolves claims for consumers who purchased or leased certain model year 2005-2020 gasoline-powered Porsche vehicles (the “Class Vehicles”). As detailed in the operative Complaint, Plaintiffs allege that two historical practices improperly skewed the emissions and fuel economy test results for the Class Vehicles: one tactic of physically altering test vehicles that impacted CO<sub>2</sub> emissions and fuel economy results; and a second practice that impacted the emissions test results of certain vehicles equipped with a high-performance “Sport+” operating mode. The Settlement provides a guaranteed, non-reversionary fund of at least \$80 million to compensate Class members who purchased and leased these Class Vehicles.

As part of the extensive discovery efforts in this case, the Parties conducted and reviewed results from rigorous and comprehensive testing that they believe to have covered all potentially affected vehicles. *See* Settlement Agreement, (“SA”) at p.1.<sup>1</sup> The Settlement funds will be allocated among Class members based on the degree to which their vehicles were potentially affected by the alleged improper practices. There are three categories of compensation available to Class members through the Settlement: Fuel Economy Cash Benefits, Sport+ Cash Benefits, and Other Class Vehicle Cash Benefits, explained in turn below.

Testing and other discovery regarding certain Class Vehicles—referred to herein as the “Fuel Economy Class Vehicles”—revealed a possible deviation in fuel economy, where the real-world performance of the affected vehicles in City, Highway and/or Combined fuel economy may have been one or two miles per gallon lower than the MPG promised to Class members on the Monroney labels. As a result, Class members who purchased or leased a Fuel Economy Class Vehicle would have paid more for gasoline over time—and had to visit the gas station more frequently than they would have—if the vehicles had performed as promised. Class members with Fuel Economy Class Vehicles will be eligible to receive Fuel Economy Cash Benefits,

---

<sup>1</sup> All capitalized terms used herein have the meaning set forth in the Consumer Class Action Settlement Agreement and Release (“Settlement,” “Settlement Agreement,” or “Agreement”), unless otherwise indicated. The Settlement is attached as Exhibit 1 hereto.

1 ranging from \$250-\$1,109 per Class Vehicle, correlating to their vehicle's revised fuel economy  
2 ratings and the number of months they possessed the vehicle. These cash payments are intended  
3 to compensate Fuel Economy Class members for the potential increased fuel consumption of their  
4 vehicle. SA at p. 1. In other words and as explained below, while market prices for gasoline  
5 fluctuate and future gas prices are unpredictable, the Fuel Economy compensation will pay all  
6 Fuel Economy Class members a very high percentage of their potential recoverable damages (and  
7 the vast majority of them 100% of damages). *See* Section V.C.3.

8 In addition, Class members whose vehicles are equipped with a high-performance Sport+  
9 Mode that are the subject of an ongoing recall (the "Sport+ Class Vehicles") will also be eligible  
10 for Sport+ Cash Benefits of an *automatic* cash payment of \$250. Finally, Class members with  
11 Class Vehicles that were also conceivably impacted by the testing practices at issue (the "Other  
12 Class Vehicles"), but for which no potential deviations were identified through the  
13 comprehensive testing program, will be eligible to receive cash payments of up to \$200 per  
14 vehicle. As with the Fuel Economy Cash Benefits, the Sport+ and Other Class Vehicle payments  
15 provide substantial compensation to Class members tied to the potential impact of the practices at  
16 issue on their Class Vehicles.

17 If any of the settlement funds are not claimed by Class members, the remaining money  
18 will *not* revert to the Defendants. Instead, funds that remain after the claims process concludes  
19 will be redistributed to Class members unless and until it is not economically feasible to do.  
20 After that redistribution, any final balance will be dedicated to environmental causes, subject to  
21 Court approval. The process will ensure that the full Settlement Value inures to the benefit of the  
22 Class and the underlying goals of this litigation.

23 The proposed Settlement is an outstanding result for the Class, and provides significant  
24 monetary value to compensate every Class member for the impact the alleged improper practices  
25 had on their Class Vehicles. Plaintiffs are proud to present this Settlement to the Court, and  
26 respectfully request approval to give notice to the Class and set the matter for final settlement  
27 approval. *See* Fed. R. Civ. P. 23(e).

1 **II. BACKGROUND AND PROCEDURAL HISTORY**

2 **A. Factual background: Plaintiffs alleged long-standing practices by the**  
 3 **Defendants to manipulate fuel economy and emissions tests for the Class**  
 4 **Vehicles.**

5 Plaintiffs allege in the operative Amended Consolidated Complaint (the “Amended  
 6 Complaint” or “Complaint”) that Defendants altered fuel economy and emissions test results in  
 7 certain gasoline-powered Porsche vehicles manufactured for model years 2005 through 2020 (the  
 8 “Class Vehicles”).<sup>2</sup> Notably, this alleged conduct occurred within the same companies and during  
 9 similar time periods as the “Clean Diesel” and “Audi CO<sub>2</sub>” emissions and fuel economy matters,  
 10 which were the subject of parallel cases and class settlements in this MDL.

11 This case began after prominent German news site *Der Spiegel* in August 2020 broke  
 12 news of possible emissions and fuel economy irregularities in Porsche’s gasoline vehicles.  
 13 Complaint ¶ 67. As these reports described, in September 2015, Porsche AG CEO Martin Mueller  
 14 took over at Volkswagen AG following former CEO Martin Winterkorn’s post-diesel-emissions-  
 15 scandal resignation. After that transition, the new CEO at Porsche commissioned a systematic  
 16 review of Porsche’s gas fleet to determine if Porsche’s gas fleet (like its diesel fleet) had  
 17 emissions and fuel economy irregularities. After engineers determined that the answer was “yes,”  
 18 Porsche subsequently reported its findings to the EPA and to German regulators. *Id.* ¶¶ 65-67.

19 Nearly two years after this initial news—and based on the extensive investigation,  
 20 discovery, and testing, that followed—Plaintiffs now allege that Porsche used two strategies that  
 21 could have impacted the emissions and fuel economy test results for the Class Vehicles. These  
 22 strategies are described in Plaintiffs’ operative Complaint as the “Axle Ratio Fraud” and the  
 23 “Sport+ Fraud.” As to the Axle Ratio Fraud, (referred to in the Settlement as the “Fuel Economy  
 24 Matter”), Plaintiffs allege that Porsche used physically doctored vehicles for emissions and fuel  
 25 economy testing, such that the hardware and software in the tested vehicles differed in material  
 26 ways from the hardware and software in vehicles that were sold to the public. This practice  
 27 included testing vehicles with a lower gear ratio than the models ultimately produced. *Id.* ¶ 72. A  
 28 lower gear ratio consumes less gasoline and emits fewer pollutants than a higher ratio, because

<sup>2</sup> Plaintiffs filed the Amended Consolidated Complaint on June 15, 2022.

1 the axle can spin and propel the vehicle at fewer revolutions per minute. *Id.* ¶ 71. As a result, the  
2 test-specific vehicles with a lower gear ratio obtained better fuel economy and emitted less CO<sub>2</sub> in  
3 the laboratory tests (the results of which were reported to the regulators and marketed to  
4 consumers) than the higher gear ratio vehicles that were actually sold and leased to consumers. *Id.*  
5 ¶ 72.

6 In addition to the Axle Ratio Fraud, Plaintiffs allege a second tactic through which  
7 Porsche wrongly represented to the regulators that its vehicles' NO<sub>x</sub> emissions were compliant  
8 with applicable limits in *all* available driving modes. These representations were not true, as some  
9 vehicles equipped with a user-selected, high-performance "Sport+ mode" exceed legal emissions  
10 limits in that mode. The impacted Sport+ Class Vehicles are now (or are expected to soon be) the  
11 subject of a Porsche voluntary, regulator-approved recall that brings the vehicles into compliance  
12 with applicable emissions standards in all modes.

13 As set forth in the Complaint, these practices persisted for years, and led to misleading  
14 Monroney labels and marketing about the Class Vehicles' real-world fuel economy performance  
15 and emissions compliance. Together, Plaintiffs allege that the conduct summarized above and in  
16 the Amended Complaint deceived regulators, Plaintiffs, and the proposed Class about *true*  
17 emissions performance and fuel economy in the Class Vehicles. *See, e.g., id.* ¶ 68.

18 **B. Procedural background: Plaintiffs investigated their claims through a**  
19 **comprehensive discovery and technical vehicle testing process.**

20 After reports about potential emissions issues in Porsche gasoline vehicles first broke in  
21 August 2020, consumers filed six class action lawsuits against Porsche AG, Porsche Cars North  
22 America, Inc. (together, "Porsche") and Volkswagen AG ("Volkswagen") alleging that Porsche  
23 modified its tested vehicles to alter fuel economy results and that certain vehicles did not comply  
24 with relevant emissions regulations in Sport+ Mode. The filed actions were consolidated before  
25 this Court with *In re: Volkswagen "Clean Diesel" Marketing, Sales Practices, and Products*  
26 *Liability Litigation*, MDL No. 2672 CRB (JSC). The Court had previously appointed Plaintiffs'  
27 Lead Counsel and a PSC in the MDL (Dkt. 1084), and ordered Plaintiffs to file a consolidated  
28 complaint in the new Porsche gasoline matters. *See* Dkt. 7756.

1 Plaintiffs and their experts continued to conduct extensive investigation and technical  
2 vehicle testing to detect discrepancies in emissions and fuel economy performance between lab  
3 and normal driving conditions. Thereafter, Plaintiffs' Lead Counsel filed a thorough, 417-page  
4 Consolidated Class Action Complaint reflecting their initial test results and investigation. Dkt.  
5 7803. In that Consolidated Complaint, Plaintiffs brought claims against Porsche and Volkswagen  
6 for fraud by concealment, violation of the Magnuson-Moss Warranty Act, breach of express and  
7 implied warranties, and violations of state consumer protection and unfair practices statutes of all  
8 50 states and the District of Columbia.

9 On May 14, 2021, Porsche and Volkswagen filed a 60-page motion to dismiss for failure  
10 to state a claim. Plaintiffs filed a 60-page opposition on August 12, 2021, and briefing on the  
11 motions to dismiss concluded on October 25, 2021. Dkt. 7862, 7884, 7901. A hearing on those  
12 pending motions was scheduled for December 10, 2021, but on October 29, 2021, the Parties  
13 asked the Court to postpone the hearing as they pursued detailed discovery and vehicle testing,  
14 and engaged in potential settlement discussions. Dkt. 7904.

15 As part of the extensive discovery efforts in this case, Plaintiffs and Defendants undertook  
16 exhaustive testing of dozens of representative Porsche models to assess the degree of impact, if  
17 any, on the vehicles that may have been affected by the alleged conduct. Ultimately, the  
18 investigations and comprehensive testing program revealed and measured the scope of the impact  
19 on the vehicles. Specifically, testing showed a measurable fuel economy difference of up to 1-2  
20 miles per gallon (and correspondingly, a fleetwide CO<sub>2</sub> emissions increase) in certain "Fuel  
21 Economy Class Vehicles." As a result, the estimated fuel economy values for these vehicles will  
22 be revised, and the new values will be available on the EPA's "Fuel Economy Label Updates"  
23 website.<sup>3</sup> As a direct result of their vehicles' decreased fuel economy, consumers polluted more,  
24 paid more for fuel, and were inconvenienced by more frequent trips to the fuel pump through the  
25 duration of their ownership or lease of a Fuel Economy Class Vehicle. Similarly, as to the Sport+  
26 Class Vehicles, testing revealed an emissions exceedance while the vehicles operated in the high-  
27 performance Sport+ Mode. For these vehicles, Porsche has launched an EPA- and CARB-

28 <sup>3</sup> <https://www.epa.gov/recalls/fuel-economy-label-updates>, as well as [www.fueleconomy.gov](http://www.fueleconomy.gov).

1 approved recall that will apply a software fix to bring the vehicles into compliance with relevant  
2 emissions standards. SA ¶ 2.21.

3 In addition to the comprehensive vehicle testing, the Parties also engaged in extensive  
4 document and information exchanges. This included the production and review of millions of  
5 pages of potentially relevant documents from the MDL, more than 500,000 technical German-  
6 language documents made available to Plaintiffs in Germany that relate to the design,  
7 development, and testing of the Porsche Class Vehicles, and the production of over twelve  
8 thousand additional pages of documents specific to issues unique to the Porsche Gasoline  
9 litigation, including technical presentations and data that Porsche provided to the regulators. *See*  
10 Declaration of David Stelling (“Stelling Decl.”) ¶ 5.

11 Plaintiffs recently filed a 428-page Amended Consolidated Class Action Complaint to  
12 account for these developments and to reflect their further knowledge of the technological  
13 background and scope of the fuel economy and emissions issues gained throughout the  
14 intervening months of litigation and discovery. The lengthy and detailed allegations in both the  
15 Amended Complaint and the earlier Consolidated Complaint reflect the exacting process  
16 undertaken by Class Counsel to analyze the complex technologies at issue in this case, and to  
17 research, develop, and assert the various claims and the remedies available to those impacted by  
18 the Defendants’ conduct.

19 **C. The Settlement process: The Parties engaged in a lengthy, evidence-based**  
20 **negotiation.**

21 After Plaintiffs filed the Consolidated Complaint in January 2021, the Parties engaged in  
22 extensive discovery and information exchanges regarding the claims and allegations therein. This  
23 included the review of millions of pages of documents, as well as a thorough testing of dozens of  
24 vehicles conducted over more than a year’s time. The Parties intended and believe that this  
25 detailed and extensive testing regime covered all affected vehicles. SA at pp.1-2.

26 This technical information facilitated months of data-driven and sophisticated settlement  
27 negotiations between the Parties, ultimately resulting in the proposed Settlement Agreement now  
28 before the Court. Throughout these negotiations, the Parties held numerous settlement meetings,

1 including multiple in-person sessions in New York and Germany. The Parties continued their  
2 discussions with many video and telephone conferences and exchanges of information before and  
3 between those meetings. Stellings Decl. ¶¶ 8, 10. By design, many of the in-person settlement  
4 meetings included discussions with Porsche's in-house counsel, high-level engineers, and  
5 technical experts. Meanwhile, Plaintiffs' Counsel continued to spend considerable time and  
6 resources investigating the strengths and weaknesses of their claims, including through a robust  
7 and prolonged exchange of documents and information with the Defendants. *Id.* ¶¶ 8, 11. In  
8 support of both the litigation and settlement efforts, Plaintiffs' counsel retained technical experts  
9 to conduct testing on multiple vehicles from a range of models and model years under approved  
10 federal vehicle testing procedures. This testing regime enabled Plaintiffs to measure and compare,  
11 among other things, the vehicles' emissions and fuel economy results to those represented when  
12 the vehicles were originally certified, and whether driving Sport+ mode caused the vehicles to  
13 exceed relevant emissions limitations.

14 In response to regulatory inquiries and this litigation, Defendants also undertook their own  
15 comprehensive testing and analysis of the emissions and fuel economy of the Class Vehicles.  
16 Plaintiffs' counsel and their experts reviewed Defendants' testing data, discussed the testing  
17 methodology with Defendants and their engineers at length, and observed some of the testing in  
18 person. *Id.* ¶ 10. In October 2021, Plaintiffs and their experts traveled to Porsche's facilities in  
19 Weissach, Germany to observe Porsche's fuel economy and emissions testing for the Class  
20 Vehicles and to assess first-hand the Emissions Compliant Repair that Porsche developed (and the  
21 regulators approved) for Sport+ Class Vehicles. *Id.* During that trip, Plaintiffs' counsel met with  
22 several high-level engineers and other personnel responsible for investigating the alleged testing  
23 irregularities in the Class Vehicles. Plaintiffs continued that discussion in March 2022 at  
24 Porsche's headquarters in Stuttgart, Germany. There, Plaintiffs further evaluated Porsche's  
25 testing, reviewed updated test results, and held further discussions with Porsche's engineers and  
26 attorneys. *Id.*

1 The outcome of all these meetings, exchanges of information, and months of negotiations  
 2 is a proposed Agreement under which the Defendants will pay at least \$80 million to the benefit  
 3 of the proposed Class.

### 4 **III. SUMMARY OF SETTLEMENT TERMS**

5 The Settlement provides substantial cash compensation to each Class Member through a  
 6 streamlined, state-of-the-art claims process that includes automatic payments for many Class  
 7 members.

#### 8 **A. The Settlement Class definition**

9 The Settlement Class is defined as follows: “a nationwide class of all persons (including  
 10 individuals and entities) who own, owned, lease, or leased a Class Vehicle.” SA ¶ 2.8.<sup>4</sup> The Class  
 11 Vehicles include approximately 500,000 Porsche gasoline vehicles, model years 2005-2020, as  
 12 defined in the proposed Settlement Agreement. *Id.* ¶ 2.14.

#### 13 **B. Settlement Benefits to Class members**

14 The proposed Settlement delivers substantial cash payments to any Class Member who  
 15 submits a valid claim and/or obtains the Sport+ Emissions Compliant Repair. The amount of  
 16 compensation available to each Class Member is based on the model and model year Class  
 17 Vehicle they purchased or leased, and the degree to which there is a measured impact on their  
 18 Class Vehicle from the conduct and testing practices at issue.

19 Class members with a Fuel Economy Class Vehicle will receive cash compensation for (1)  
 20 the difference in cost for the amount of gasoline that would have been required under the original  
 21 Monroney fuel economy label and the greater amount required under the adjusted fuel economy  
 22 label, and (2) a goodwill payment of an additional 15% of those damages to compensate for any  
 23 inconvenience. *Id.* ¶ 4.1. The payments range from \$250 to \$1,109.66 for Class members who

---

24 <sup>4</sup> Those excluded from the Class are: (a) Defendants’ officers, directors and employees and  
 25 participants in the Porsche Associate Lease Program; Defendants’ affiliates and affiliates’  
 26 officers, directors and employees; Defendants’ distributors and distributors’ officers, directors  
 27 and employees; (b) Judicial officers and their immediate family members and associated court  
 28 staff assigned to this case; (c) All individuals who leased a Class Vehicle from a lessor other than  
 Porsche Financial Services; (d) All individuals who are not Tested Fuel Economy Class  
 Members, Sport+ Class Members, or Fuel Economy Class Members; and (e) All those otherwise  
 in the Class who or which timely and properly exclude themselves from the Class as provided in  
 this Class Action Agreement. SA ¶ 2.8.

1 owned the vehicle for all 96 months after the vehicle was first sold or leased (the full useful life of  
2 the vehicle). *Id.*, Ex. 1. Compensation for Class members who sold, purchased used, or leased  
3 their Fuel Economy Class Vehicles follows the same concept, but will be prorated to the number  
4 of months of their ownership or possession.

5 In addition to the Fuel Economy Class Vehicles, testing indicated that certain Class  
6 Vehicles equipped with “Sport+” driving mode exceeded emissions limits when driven in that  
7 mode (the “Sport+ Class Vehicles”). Porsche expects that Class members with a Sport+ Class  
8 Vehicle will be offered an emissions compliant repair (“ECR”) software update that will reduce  
9 their vehicles’ emissions in Sport+ Mode and bring them into compliance with the relevant  
10 regulatory limits. Class members with a Sport+ vehicle will *automatically* receive a \$250 cash  
11 payment upon completion of the ECR, without having to submit any further claim for  
12 compensation.<sup>5</sup> This is a significant payment to incentivize Class members to bring their Class  
13 Vehicle to a Porsche dealership for an ECR, and to compensate them for their time and  
14 inconvenience in doing so.<sup>6</sup>

15 Finally, Class members with “Other Class Vehicles” for which emissions or fuel economy  
16 deviations were not identified through the Parties’ extensive investigation and testing efforts—but  
17 which could conceivably have experienced a discrepancy given the timing and circumstances of  
18 their development and manufacture—will also be offered meaningful cash payments of up to  
19 \$200 per vehicle, depending on the overall settlement claims rate. If an *extraordinary* claims rate  
20 causes the allocation to the Other Class Vehicles to fall below \$150 per vehicle, Defendants have  
21 agreed to pay an *additional* \$5 million into the Settlement Fund, bringing the total to \$85 million.

22 If there are any funds remaining in the Settlement Value after all valid, complete, and  
23 timely Claims are paid, the Parties anticipate a redistribution of the remaining funds to Class  
24 members unless and until it is economically infeasible to do so. SA ¶ 4.4. Finally, after a  
25 redistribution, and subject to Court approval, any final balance will be directed *cy pres* to

26 \_\_\_\_\_  
27 <sup>5</sup> Payments to Sport+ Class Members will be automatic given the contemporaneous records and  
28 contact information available after obtaining the Sport+ ECR at a Porsche dealership, thereby  
eliminating the need to submit a claim form.

<sup>6</sup> Defendants are in the process of obtaining regulator approval for an ECR for a small fraction of  
the Sport+ Class Vehicles; the ECRs for the vast majority of vehicles has already been approved.

1 environmental remediation efforts. *Id.* This ensures that *all* of the money secured by the  
2 Settlement will inure to the benefit of the Class and the interests advanced in this litigation.

### 3 **C. Notice and Claims Administration**

4 The fees and costs of the Settlement Administrator—in implementing the notice program,  
5 administering the claims process, mailing checks as necessary, and performing the other  
6 administrative tasks described in the Settlement—will be paid from the Settlement Fund. SA  
7 ¶¶ 5.4, 9.3. The proposed Settlement Administrator was selected through a competitive bidding  
8 and interview process. Proposed Settlement Class Counsel received and analyzed bids from 6  
9 respected and experienced administrators. Stellings Decl., ¶ 19. Ultimately, after multiple rounds  
10 of vetting, Plaintiffs, with the consent of Defendants, selected JND Legal Administration. JND is  
11 a well-known firm that has successfully administrated numerous class settlements and judgments.  
12 *See* Declaration of Jennifer Keough, (“Keough Decl.”), ¶¶ 7, 8. Lead Counsel has engaged JND  
13 as the settlement claims and/or notice provider in approximately 8 cases over the last two years,  
14 but has also worked with numerous other providers over this time period. Stellings Decl. ¶ 21.  
15 JND estimates that the Notice and Administrative Costs in this case will range from  
16 approximately \$1.5 million to \$2.5 million, with the total based on the final tally of owners,  
17 lessees, and claims associated with the approximately 500,000 Class Vehicles. Plaintiffs believe  
18 the estimates are reasonable and necessary given the extensive size of the Class and the  
19 proportional costs to send notice and administer claims.

### 20 **D. Attorneys’ Fees, Expenses, and Service Awards**

21 Proposed Settlement Class Counsel will apply to the Court for an award of reasonable  
22 attorneys’ fees in a total amount not to exceed \$24 million (*i.e.*, up to 30% of the Settlement  
23 Fund) and reimbursement of reasonable litigation expenses up to \$1.1 million. Settlement Class  
24 Counsel will also apply for service awards of up to \$250 for each of the 33 named Plaintiffs, to  
25 compensate them for their efforts and commitment in prosecuting this case on behalf of the  
26 Settlement Class. Any attorneys’ fees, expenses, and service awards granted by the Court will be  
27 paid from the Settlement Fund. SA ¶¶ 12.1, 16.2.

1 **IV. LEGAL STANDARD FOR PRELIMINARY APPROVAL AND DECISION TO**  
 2 **GIVE NOTICE**

3 Federal Rule of Civil Procedure 23(e) governs a district court’s analysis of the fairness of  
 4 a proposed class action settlement and creates a three-step process for approval. First, a court  
 5 must determine that it is likely to (i) approve the proposed settlement as fair, reasonable, and  
 6 adequate, after considering the factors outlined in Rule 23(e)(2), and (ii) certify the settlement  
 7 class after the final approval hearing. *See* Fed. R. Civ. P. 23(e)(1)(B); *see also* 2018 Advisory  
 8 Committee Notes to Rule 23 (standard for directing notice is whether the Court “likely will be  
 9 able both to approve the settlement proposal under Rule 23(e)(2) and . . . certify the class for  
 10 purposes of judgment on the proposal”). Second, a court must direct notice to the proposed  
 11 settlement class, describing the terms of the proposed settlement and the definition of the  
 12 proposed class, to give them an opportunity to object or to opt out. *See* Fed. R. Civ. P.  
 13 23(c)(2)(B); Fed. R. Civ. P. 23(e)(1), (5). Third, after a hearing, the court may grant final  
 14 approval of the proposed settlement on a finding that the settlement is fair, reasonable, and  
 15 adequate, and certify the settlement class. Fed. R. Civ. P. 23(e)(2). In this District, a movant’s  
 16 submission should also include the information called for under the District’s Procedural  
 17 Guidance for Class Action Settlements (“Procedural Guidance”). Where, as here, “the parties  
 18 negotiate a settlement agreement before the class has been certified, settlement approval requires  
 19 a higher standard of fairness and a more probing inquiry than may be normally required under  
 20 Rule 23(e).” *Roes 1-2 v. SFBSC Mgmt., LLC*, 944 F.3d 1035, 1048 (9th Cir. 2019).

21 **V. ARGUMENT**

22 **A. The Court will be able to certify the proposed Class for settlement purposes**  
 23 **upon final approval.**

24 Certification of a settlement class is “a two-step process.” *In re Volkswagen “Clean*  
 25 *Diesel” Mktg., Sales Practices, & Prods. Liab. Litig.*, No. 2672 CRB (JSC), 2016 WL 4010049,  
 26 at \*10 (N.D. Cal. July 26, 2016) (Breyer, J.) (citing *Amchem Prods., Inc. v. Windsor*, 521 U.S.  
 27 591, 613 (1997)). First, the Court must find that the proposed settlement class satisfies the  
 28 requirements of Rule 23(a). *Id.* (citing Fed. R. Civ. P. 23(a)). Second, the Court must find that “a

1 class action may be maintained under either Rule 23(b)(1), (2), or (3).” *Id.* (citing *Amchem*, 521  
 2 U.S. at 613). The proposed Settlement Class here readily satisfies all Rule 23(a)(1)-(4) and (b)(3)  
 3 certification requirements. *See In re Hyundai & Kia Fuel Econ. Litig.*, 926 F.3d 539, 557 (9th Cir.  
 4 2019) (en banc) (upholding district court’s preliminary approval and certification of nationwide  
 5 settlement class in similar fuel economy settlement); *see also* Dkt. 6764 (Order granting  
 6 preliminary approval and directing notice in similar fuel economy settlement in the Audi CO<sub>2</sub>  
 7 Cases in this litigation).

8 **1. The Settlement Class meets the requirements of Rule 23(a).**

9 **a. Rule 23(a)(1): The Class is sufficiently numerous.**

10 Rule 23(a)(1) requires that “the class is so numerous that joinder of all class members is  
 11 impracticable.” Fed. R. Civ. P. 23(a)(1). A “class of 41 or more is usually sufficiently  
 12 numerous.” *5 Moore’s Federal Practice—Civil* § 23.22 (2016); *see also Hernandez v. Cty. of*  
 13 *Monterey*, 305 F.R.D. 132, 153 (N.D. Cal. 2015). The Settlement Class, as defined, includes  
 14 current and former owners and lessees of at least 500,000 Class Vehicles. Numerosity is easily  
 15 satisfied here.

16 **b. Rule 23(a)(2): The Class Claims present common questions of**  
 17 **law and fact.**

18 “Federal Rule of Civil Procedure 23(a)(2) conditions class certification on demonstrating  
 19 that members of the proposed class share common ‘questions of law or fact.’” *Stockwell v. City*  
 20 *& Cty. of San Francisco*, 749 F.3d 1107, 1111 (9th Cir. 2014). Commonality “does not turn on  
 21 the number of common questions, but on their relevance to the factual and legal issues at the core  
 22 of the purported class’ claims.” *Jimenez v. Allstate Ins. Co.*, 765 F.3d 1161, 1165 (9th Cir. 2014).  
 23 “‘Even a single question of law or fact common to the members of the class will satisfy the  
 24 commonality requirement.’” *Wal-Mart Stores, Inc. v. Dukes*, 564 U.S. 338, 369 (2011).<sup>7</sup>

25 Courts routinely find commonality where, as here, the class claims arise from a  
 26 defendant’s uniform course of fraudulent conduct. *See, e.g., In re Chrysler-Dodge-Jeep*  
 27 *Ecodiesel Mktg., Sales Practices, & Prods. Liab. Litig.*, No. 17-MD-02777-EMC, 2019 WL

28 <sup>7</sup> Here, and throughout, internal citations are omitted unless otherwise indicated.

1 536661, at \*6 (N.D. Cal. Feb. 11, 2019) (commonality satisfied where claims arose from the  
 2 defendants’ “common course of conduct” in perpetrating alleged vehicle emissions cheating  
 3 scheme); *Cohen v. Trump*, 303 F.R.D. 376, 382 (S.D. Cal. 2014) (finding “common questions as  
 4 to ‘Trump’s scheme and common course of conduct, which ensnared Plaintiff[] and the other  
 5 Class members alike.”).<sup>8</sup>

6 Here, the Settlement Class claims are rooted in common questions of fact relating to  
 7 Defendants’ alleged irregularities relating to emissions and fuel economy test results in the Class  
 8 Vehicles, and related representations to regulators and consumers. *See, e.g.*, Am. Compl. ¶ 1; *see*  
 9 *also In re Hyundai*, 926 F.3d at 557 (similar common questions about misrepresented fuel  
 10 economy ratings satisfied commonality requirement). These common questions will, in turn,  
 11 generate common answers “apt to drive the resolution of the Clitigation” for the Settlement Class  
 12 as a whole. *See Dukes*, 564 U.S. at 350. As the Settlement Class’s “injuries derive from  
 13 [D]efendants’ alleged ‘unitary course of conduct,’” Plaintiffs have “‘identified a unifying thread  
 14 that warrants class treatment.” *Sykes v. Mel Harris & Assocs. LLC*, 285 F.R.D. 279, 290  
 15 (S.D.N.Y. 2012), *aff’d* 780 F.3d 70 (2d Cir. 2015). As in the *Volkswagen* diesel litigation,  
 16 “[w]ithout class certification, individual Class members would be forced to separately litigate the  
 17 same issues of law and fact which arise from Volkswagen’s use of the [emissions cheat] and  
 18 Volkswagen’s alleged common course of conduct.” 2016 WL 4010049, at \*10.

19 **c. Rule 23(a)(3): The Settlement Class Representatives’ claims are**  
 20 **typical of other Class members’ claims.**

21 Under Rule 23(a)(3), Plaintiffs’ claims are “typical” if they are “reasonably coextensive  
 22 with those of absent class members; they need not be substantially identical.” *Parsons v. Ryan*,  
 23 754 F.3d 657, 685 (9th Cir. 2014) (citation omitted). “The test of typicality is whether other

24 \_\_\_\_\_  
 25 <sup>8</sup> Likewise, commonality is satisfied in cases where defendants deployed uniform  
 26 misrepresentations to deceive the public (such as the Monroney labels and other advertisements  
 27 for the Class Vehicles here). *See Ries v. Ariz. Beverages USA LLC*, 287 F.R.D. 523, 537 (N.D.  
 28 Cal. 2012) (“Courts routinely find commonality in false advertising cases . . . .”); *Astiana v. Kashi*  
*Co.*, 291 F.R.D. 493, 501-02 (S.D. Cal. 2013) (same); *see also Guido v. L’Oreal, USA, Inc.*, 284  
 F.R.D. 468, 478 (C.D. Cal. 2012) (whether misrepresentations “are unlawful, deceptive, unfair, or  
 misleading to reasonable consumers are the type of questions tailored to be answered in ‘the  
 capacity of a classwide proceeding to generate common answers apt to drive the resolution of the  
 litigation’”) (quoting *Dukes*, 564 U.S. at 350).

1 members have the same or similar injury, whether the action is based on conduct which is not  
2 unique to the named plaintiffs and whether other class members have been injured by the same  
3 course of conduct.” *Hernandez*, 305 F.R.D. at 159. Typicality “assure[s] that the interest of the  
4 named representative aligns with the interests of the class.” *Wolin v. Jaguar Land Rover N. Am.,*  
5 *LLC*, 617 F.3d 1168, 1175 (9th Cir. 2010) (quoting *Hanon v. Dataprods. Corp.*, 976 F.2d 497,  
6 508 (9th Cir. 1992)). Thus, where a plaintiff suffered a similar injury and other class members  
7 were injured by the same course of conduct, typicality is satisfied. *See Parsons*, 754 F.3d at 685;  
8 *see also Evon v. Law Offices of Sidney Mickell*, 688 F.3d 1015, 1030 (9th Cir. 2012).

9 Here, the same course of conduct injured the Settlement Class Representatives and the  
10 other members of the proposed Settlement Class in the same ways. The Settlement Class  
11 Representatives, like other Settlement Class members, purchased or leased Class Vehicles that  
12 did not or may not obtain the fuel economy and emissions performance they reasonably expected.  
13 As a result, they had to pay for more gas and visit the gas pump more frequently, and/or will take  
14 their vehicles in for a software fix to ensure their compliance with emissions regulations. The  
15 typicality requirements are satisfied.

16 **d. Rule 23(a)(4): The Settlement Class Representatives and Class**  
17 **Counsel have and will protect the interests of the Class.**

18 Rule 23(a)(4)’s adequacy requirement is met where, as here, “the representative parties  
19 will fairly and adequately protect the interests of the class.” Fed. R. Civ. P. 23(a)(4). Adequacy  
20 entails a two-prong inquiry: “(1) do the named plaintiffs and their counsel have any conflicts of  
21 interest with other class members and (2) will the named plaintiffs and their counsel prosecute the  
22 action vigorously on behalf of the class?” *Evon*, 688 F.3d at 1031 (quoting *Hanlon v. Chrysler*  
23 *Corp.*, 150 F.3d 1011, 1020 (9th Cir. 1998)). Both prongs are readily satisfied here.

24 The Settlement Class Representatives have no interests antagonistic to Settlement Class  
25 members and will continue to protect the Class’s interests in overseeing the Settlement  
26 administration and through any appeals. *See Clemens v. Hair Club for Men, LLC*, No. C 15-  
27 01431 WHA, 2016 WL 1461944, at \*2-3 (N.D. Cal. Apr. 14, 2016). Indeed, the Settlement Class  
28 Representatives “are entirely aligned [with the Settlement Class] in their interest in proving that

1 [Defendants] misled them and share the common goal of obtaining redress for their injuries.”  
2 *Volkswagen*, 2016 WL 4010049, at \*11. The Representatives understand their duties, have  
3 agreed to consider the interests of absent Settlement Class members, and have reviewed and  
4 uniformly endorsed the Settlement terms. *See* Stellings Decl. ¶ 22; *see also, e.g., Trosper v.*  
5 *Styker Corp.*, No. 13-CV-0607-LHK, 2014 WL 4145448, at \*12 (N.D. Cal. Aug. 21, 2014) (“All  
6 that is necessary is a ‘rudimentary understanding of the present action and ... a demonstrated  
7 willingness to assist counsel in the prosecution of the litigation.’”). The proposed Settlement  
8 Class Representatives are more than adequate.

9 Similarly, as demonstrated throughout this litigation, Lead Counsel and many of the PSC  
10 firms have undertaken an enormous amount of work, effort, and expense in this MDL and in  
11 litigating the Porsche Gasoline cases. They have demonstrated their willingness to devote  
12 whatever resources were necessary to reach a successful outcome throughout the nearly one and  
13 half years since filing the Consolidated Complaint. They, too, satisfy Rule 23(a)(4).

## 14 **2. The Settlement Class meets the requirements of Rule 23(b)(3).**

15 Rule 23(b)(3)’s requirements are also satisfied because (i) “questions of law or fact  
16 common to class members predominate over any questions affecting only individual members”;  
17 and (ii) a class action is “superior to other available methods for fairly and efficiently adjudicating  
18 the controversy.” Fed. R. Civ. P. 23(b)(3).

### 19 **a. Common issues of law and fact predominate.**

20 “The predominance inquiry ‘asks whether the common, aggregation-enabling, issues in  
21 the case are more prevalent or important than the non-common, aggregation-defeating, individual  
22 issues.’” *Tyson Foods, Inc. v. Bouaphakeo*, 136 S. Ct. 1036, 1045 (2016). “When ‘one or more  
23 of the central issues in the action are common to the class and can be said to predominate, the  
24 action may be considered proper under Rule 23(b)(3) even though other important matters will  
25 have to be tried separately, such as damages or some affirmative defenses peculiar to some  
26 individual class members.’” *Id.* At its core, “[p]redominance is a question of efficiency.”  
27 *Butler v. Sears, Roebuck & Co.*, 702 F.3d 359, 362 (7th Cir. 2012). Thus, “[w]hen common  
28 questions present a significant aspect of the case and they can be resolved for all members of the

1 class in a single adjudication, there is clear justification for handling the dispute on a  
2 representative rather than on an individual basis.” *Hanlon*, 150 F.3d at 1022.

3 The Ninth Circuit favors class treatment of fraud claims stemming from a “‘common  
4 course of conduct.’” *See In re First Alliance Mortg. Co.*, 471 F.3d 977, 990 (9th Cir. 2006);  
5 *Hanlon*, 150 F.3d at 1022-23. Even outside of the settlement context, predominance is readily  
6 satisfied for consumer claims arising from the defendants’ common course of conduct. *See*  
7 *Amchem Prods.*, 521 U.S. at 625; *Wolin*, 617 F.3d at 1173, 1176 (consumer claims based on  
8 uniform omissions certifiable where “susceptible to proof by generalized evidence,” even if  
9 individualized issues remain); *Friedman v. 24 Hour Fitness USA, Inc.*, No. CV 06-6282 AHM  
10 (CTx), 2009 WL 2711956, at \*8 (C.D. Cal. Aug. 25, 2009) (common issues predominate where  
11 alleged injury is a result “of a single fraudulent scheme.”).

12 Here, too, questions of law and fact common to the Settlement Class members’ claims  
13 predominate over any questions affecting only individual members, because the common issues  
14 “turn on a common course of conduct by the defendant in [a] nationwide class action.” *See In re*  
15 *Hyundai*, 926 F.3d at 559 (citing *Hanlon*, 150 F.3d at 1022–23). Indeed, “[i]n many consumer  
16 fraud cases, the crux of each consumer’s claim is that a company’s mass marketing efforts,  
17 common to all consumers, misrepresented the company’s product”—here, the vehicles’ fuel  
18 efficiency and emissions-compliant performance. *Id.*

19 Similar to *Hyundai*, Defendants’ common course of conduct—the alleged irregularities as  
20 to emissions and fuel economy test results—are central to the claims asserted in the Amended  
21 Complaint. Common, unifying questions as to the Defendants’ conduct include, for example,  
22 “(1) “[w]hether the fuel economy statements were in fact inaccurate”; and (2) “whether [the  
23 Defendants] knew that their fuel economy statements were false or misleading.” *Id.* The alleged  
24 misrepresentations to the Class were (among other sources) “uniformly made via Monroney  
25 stickers.” *Id.* (internal quotation marks omitted). As such, Defendants allegedly “perpetrated the  
26 same fraud in the same manner against all Class members.” *Volkswagen*, 2016 WL 4010049, at  
27 \*12. Predominance is satisfied.

28

1                                   **b. Class treatment is superior to other available methods for the**  
2                                   **resolution of this case.**

3                   Superiority asks “whether the objectives of the particular class action procedure will be  
4 achieved in the particular case.” *Hanlon*, 150 F.3d at 1023. In other words, it “requires the court  
5 to determine whether maintenance of this litigation as a class action is efficient and whether it is  
6 fair.” *Wolin*, 617 F.3d at 1175-76. Under Rule 23(b)(3), “the Court evaluates whether a class  
7 action is a superior method of adjudicating plaintiff’s claims by evaluating four factors: ‘(1) the  
8 interest of each class member in individually controlling the prosecution or defense of separate  
9 actions; (2) the extent and nature of any litigation concerning the controversy already commenced  
10 by or against the class; (3) the desirability of concentrating the litigation of the claims in the  
11 particular forum; and (4) the difficulties likely to be encountered in the management of a class  
12 action.’” *Trosper*, 2014 WL 4145448, at \*17.

13                   Class treatment here is far superior to the litigation of hundreds of thousands of individual  
14 consumer actions. “From either a judicial or litigant viewpoint, there is no advantage in  
15 individual members controlling the prosecution of separate actions. There would be less  
16 litigation or settlement leverage, significantly reduced resources and no greater prospect for  
17 recovery.” *Hanlon*, 150 F.3d at 1023; *see also Wolin*, 617 F.3d at 1176 (“Forcing individual  
18 vehicle owners to litigate their cases, particularly where common issues predominate for the  
19 proposed class, is an inferior method of adjudication.”). The maximum damages sought by each  
20 Settlement Class Member (ranging from \$250-\$1,109.66 per Fuel Economy Class Vehicle, up to  
21 \$250 for Sport+ Vehicles, and up to \$200 for each Other Class Vehicle), while significant to  
22 individual Class members, are relatively small in comparison to the substantial cost of  
23 prosecuting each one’s individual claims, especially given the technical nature of the claims at  
24 issue. *See Smith v. Cardinal Logistics Mgmt. Corp.*, No. 07-2104 SC, 2008 WL 4156364, at \*11  
25 (N.D. Cal. Sept. 5, 2008) (small interest in individual litigation where damages averaged \$25,000-  
26 \$30,000 per year of work).

27                   Class resolution is also superior from an efficiency and resource perspective. Indeed, “[i]f  
28 Class members were to bring individual lawsuits against [Defendants], each Member would be

1 required to prove the same wrongful conduct to establish liability and thus would offer the same  
2 evidence.” *Volkswagen*, 2016 WL 4010049, at \*12. With a Class of well over 500,000  
3 associated with at least that many Class Vehicles, “there is the potential for just as many lawsuits  
4 with the possibility of inconsistent rulings and results.” *Id.* “Thus, classwide resolution of their  
5 claims is clearly favored over other means of adjudication, and the proposed Settlement resolves  
6 Class members’ claims at once.” *Id.* Superiority is met here, and Rule 23(e)(1)(B)(ii) is satisfied.

7 \* \* \*

8 For all the reasons set forth above, Plaintiffs respectfully submit that the Court will—after  
9 notice is issued and Class member input received—“likely be able to . . . certify the class for  
10 purposes of judgment on the proposal.” *See* Fed. R. Civ. P. 23(e)(1)(B).

11 **B. The Court should appoint Lead Plaintiffs’ Counsel as Interim Settlement**  
12 **Class Counsel under Rule 23(g)(3).**

13 The Court is required to appoint class counsel to represent the Settlement Class. *See* Fed.  
14 R. Civ. P. 23(g). At the outset of the MDL, as part of a competitive application process with a  
15 total of 150 submissions, the Court chose Lead Counsel and each member of the PSC due to their  
16 qualifications, experience, and commitment to the successful prosecution of this litigation. *See*  
17 Dkt. 1084. The criteria that the Court considered in appointing Lead Counsel and the PSC align  
18 with the considerations set forth in Rule 23(g). *See, e.g., Clemens*, 2016 WL 1461944, at \*2. As  
19 noted above, Lead Counsel and several of the PSC firms have undertaken an enormous amount of  
20 work, effort, and expense in this MDL and in litigating the Porsche gasoline cases. *See* Stellings  
21 Decl. ¶¶ 5-7. Plaintiffs therefore submit that Lead Counsel should be appointed as Interim  
22 Settlement Class Counsel under Rule 23(g)(3) to conduct the necessary steps in the Settlement  
23 approval process.

24 **C. The Settlement is fair, reasonable, and adequate.**

25 Rule 23(e)(2) identifies several criteria for the Court to use in deciding whether to grant  
26 preliminary approval of a proposed class settlement and direct notice to the proposed class. A  
27 “presumption of correctness” attaches where, as here, a “class settlement [was] reached in arm’s-  
28 length negotiations between experienced capable counsel after meaningful discovery.” *See Free*

1 *Range Content, Inc. v. Google, LLC*, No. 14-CV-02329-BLF, 2019 WL 1299504, at \*6 (N.D.  
2 Cal. Mar. 21, 2019). The Settlement proposed here readily satisfies the criteria for preliminary  
3 approval.

4 **1. Rule 23(e)(2)(A): Class Counsel and the Settlement Class**  
5 **Representatives have and will continue to zealously represent the**  
6 **Class.**

7 Class Counsel and the Settlement Class Representatives fought hard to protect the  
8 interests of the Class, as evidenced by the significant compensation available to the Class through  
9 the proposed Settlement. Class Counsel prosecuted this action and the fair resolution of it with  
10 vigor and dedication since the Porsche Gasoline litigation began in 2020. *See* Fed. R. Civ. P.  
11 23(e)(2)(A). As detailed above, Class Counsel undertook significant efforts to uncover the  
12 facts—including retaining technical experts and conducting multiple rounds of vehicle testing—  
13 to continuously prosecute and refine the Class claims. Class Counsel also engaged in robust Rule  
14 12 motion practice—researching, drafting, and filing a thorough, 60-page opposition brief to  
15 Defendants’ motion to dismiss. *See* § II.B, *supra*.

16 The Settlement Class Representatives are actively engaged. Each worked with counsel to  
17 review and evaluate the terms of the proposed Settlement Agreement and has endorsed its terms.  
18 Each Representative has also expressed their continued willingness to protect the Class until the  
19 Settlement is approved and its administration completed. *See* Stelling Decl. ¶ 22.

20 **2. Rule 23(e)(2)(B): The Settlement is the product of good faith,**  
21 **informed, and arm’s-length negotiations.**

22 The Parties undertook serious, informed, and arm’s-length negotiations over more than a  
23 year’s time—including multiple in-person negotiation sessions in Germany and New York and  
24 multiple remote sessions via video and telephone. *Id.* ¶ 8. These detailed, technical, and  
25 evidence-based discussions culminated in in the proposed Settlement now before the Court. *See*  
26 Fed. R. Civ. P. 23(e)(2)(B).

27 With negotiations ongoing, and as described above (§ II.C), Class Counsel retained  
28 technical experts to independently test Class Vehicles and analyze comprehensive data on the  
vehicles’ emissions and fuel economy performance, including in the user-selected Sport+ mode.

1 Defendants likewise conducted an extensive testing and review process, which included third-  
2 party validation of the results. The Parties agreed to share information about their independent  
3 processes and results to facilitate informed negotiations. This robust process included, among  
4 other things, vehicle testing conducted in Germany with experts from all Parties; detailed  
5 questioning of high-level Porsche managers and engineers; review and analysis of millions of  
6 pages of documents pertaining to Porsche vehicles, including documents that had been produced  
7 in the MDL; over 500,000 technical German language documents made available to Plaintiffs' in  
8 Germany; and more than twelve thousand pages of documents specific to certain issues in the  
9 Porsche Gasoline cases. Stellings Decl. ¶ 5.

10 Where extensive information has been exchanged, “[a] court may assume that the parties  
11 have a good understanding of the strengths and weaknesses of their respective cases and hence  
12 that the settlement’s value is based upon such adequate information.” William B. Rubenstein, et  
13 al., 4 Newberg on Class Actions § 13:49 (5th ed. 2012) (“*Newberg*”); cf. *In re Anthem, Inc. Data*  
14 *Breach Litig.*, 327 F.R.D. 299, 320 (N.D. Cal. 2018) (concluding that the “extent of discovery”  
15 and factual investigation undertaken by the parties gave them “a good sense of the strength and  
16 weaknesses of their respective cases in order to ‘make an informed decision about settlement’”  
17 (citing *In re Mego Fin. Corp. Sec. Litig.*, 213 F.3d 454, 459 (9th Cir. 2000))).

18 Here, too, the significant exchange of documents and information supports the Parties’  
19 ability to make a well-supported decision on settlement. Notably, discovery supporting a  
20 settlement does not need to have been formally produced and can include documents and  
21 information learned in related proceedings. See *Linney v. Cellular Alaska P’ship*, 151 F.3d 1234,  
22 1239–40, 1241 (9th Cir. 1998) (noting that formal discovery is not required for settlement  
23 approval and that “[i]n particular, the district court and plaintiffs may rely on discovery developed  
24 in prior or related proceedings”); *Wahl v. Yahoo! Inc.*, No. 17-CV-02745-BLF, 2018 WL  
25 6002323, at \*4 (N.D. Cal. Nov. 15, 2018) (granting final approval of class settlement although  
26 “little formal discovery” was conducted, noting relevant inquiry was whether parties had  
27 “sufficient information to evaluate the case’s strengths and weaknesses.”). Here, Defendants have  
28 produced or made available hundreds of thousands of documents relevant to Plaintiffs’ claims in

1 the Porsche Gasoline matters, and millions more pages of relevant documents pertaining to  
2 Porsche vehicles from the Audi CO<sub>2</sub> cases and the “Clean Diesel” MDL—all of which informed  
3 Plaintiffs’ understanding of the strengths and weaknesses of their claims. Stellings Decl. ¶ 5.

4 A meaningful exchange of documents and information also evidences that the litigation  
5 was adversarial, and therefore serves as “an indirect indicator that a settlement is not collusive but  
6 arms-length.” 4 *Newberg* § 13:49; *see also In re Anthem*, 327 F.R.D. at 320 (“Extensive  
7 discovery is also indicative of a lack of collusion. . . .”); *In re Volkswagen “Clean Diesel” Mktg.,*  
8 *Sales Practices, & Prods. Liab. Litig.*, No. MDL 2672 CRB (JSC), 2019 WL 2077847, at \*1  
9 (N.D. Cal. May 10, 2019) (“Lead Counsel vigorously litigated this action during motion practice  
10 and discovery, and the record supports the continuation of that effort during settlement  
11 negotiations.”). Here, Plaintiffs reviewed and analyzed a significant production of the  
12 Defendants’ documents, data, and other information, and conducted on-the-ground investigations  
13 with expert interviews and site visits to Defendant Porsche’s testing facility in Weissach,  
14 Germany, among other things. Stellings Decl. ¶¶ 8, 10.

15 It is also worth noting that the methodology and outcomes of the Parties’ testing were  
16 independently assessed by the EPA and CARB, who have already approved the ECR for most of  
17 the Sport+ Class Vehicles, and reviewed the fuel economy calculations underpinning the  
18 Settlement’s compensation formula for the Fuel Economy recovery. The revised fuel economy  
19 values will be updated on the official government website, [www.fueleconomy.gov](http://www.fueleconomy.gov). *See In re*  
20 *Volkswagen “Clean Diesel” Mktg., Sales Practices, & Prods. Liab. Litig.*, No. MDL 2672 CRB  
21 (JSC), 2016 WL 4010049 at \*14 (N.D. Cal. Oct. 25, 2016), *aff’d sub nom. In re Volkswagen*  
22 *“Clean Diesel” Mktg., Sales Practices, & Prods. Liab. Litig.*, 895 F.3d 597 (9th Cir. 2018)  
23 (government participation in negotiations weighed “heavily in favor” of approval); *Marshall v.*  
24 *Holiday Magic, Inc.*, 550 F.2d 1173, 1178 (9th Cir. 1977) (“The participation of a government  
25 agency serves to protect the interests of the class members, particularly absentees, and approval  
26 by the agency is an important factor for the court’s consideration.”).

27 But perhaps most importantly of all, the result of the negotiations speaks for itself.  
28 Where, as here, the vast majority of Fuel Economy Class members stand to be fully compensated

1 for their damages (*see* Section V.C.3), and Sport+ and Other Class Vehicle Class members will  
2 each be offered substantial compensation closely tethered to how their Class Vehicles were  
3 affected from the conduct at issue, there is little room for argument that counsel failed to protect  
4 the interests of the Class or otherwise engaged in collusive behavior. *See* Stellings Decl. ¶¶ 14-  
5 16; *see also In re Volkswagen*, 2019 WL 2077847, at \*1 (granting final settlement approval where  
6 “Lead Counsel ha[d] . . . a successful track record of representing [plaintiffs] in cases of this kind  
7 . . . [and] attest[ed] that both sides engaged in a series of intensive, arm’s-length negotiations” and  
8 there was “no reason to doubt the veracity of Lead Counsel’s representations”).

9 **3. Rule 23(e)(2)(C): The Settlement provides substantial compensation in**  
10 **exchange for the compromise of strong claims.**

11 The Settlement provides substantial relief for the Class, especially considering (i) the  
12 costs, risks, and delay of trial and appeal; (ii) the effectiveness of the proposed distribution plan;  
13 and (iii) the fair terms of the requested award of attorney’s fees. *See* Fed. R. Civ. P. 23(e)(2)(C).

14 As noted above, the Settlement secures at least \$80 million for cash payments to  
15 compensate Class members for the impacts on their Class Vehicles due to the Defendants’ alleged  
16 practices of influencing regulatory test results. The compensation available for Fuel Economy  
17 Class Vehicles consists of (1) the difference in cost for the amount of gasoline that would have  
18 been required under the original Monroney fuel economy label and the greater amount required  
19 under the adjusted fuel economy label, and (2) a goodwill payment of an additional 15% of those  
20 damages to compensate for any inconvenience. This compensation formula, which is detailed in  
21 the Long Form Notice, relies on a number of negotiated parameters—including the average miles  
22 per year, the expected duration of ownership, and fuel cost—each of which is favorable to the  
23 Class.

24 Specifically, the Settlement formula calculates the extra gallons attributable to the reduced  
25 fuel economy based on specific data about the average annual mileage for the impacted Class  
26 Vehicle models. Stellings Decl. ¶ 14. Furthermore, the Settlement compensates Class members  
27 for 96 months’ worth of extra gasoline combined with the monthly estimates for average mileage.  
28 *Id.* This compares favorably to the number of months compensated in three recent class action

1 settlements related to fuel economy reductions, including in this MDL. *See Ellis v. Gen. Motors,*  
2 *LLC*, No. 2:16-cv-11747-GCS-APP, Dkt. 34-2 at 12 (E.D. Mich. July 14, 2017); *In re Hyundai,*  
3 *926 F.3d* at 554; *In re Volkswagen “Clean Diesel”*, No. 15-md-2672, Dkts. 6764, 7244 (N.D.  
4 Cal.) (orders granting preliminary and final approval of consumer class settlements in Audi CO<sub>2</sub>  
5 Cases using analogous compensation formula for fuel economy differential).

6 Finally, the compensation formula uses an estimated (inflation adjusted) fuel cost of \$3.97  
7 per gallon, and applies a 15% goodwill premium to account for any inconvenience to Class  
8 members. Given the scope of the Class Vehicles involved in this litigation, the \$3.97 average  
9 premium fuel price in the Settlement is a proxy for a wide range of market prices over a 21-year  
10 period, from 2005 to 2026.<sup>9</sup> Applying an average premium fuel price over this time period will  
11 create a streamlined and efficient claims process that avoids an unwieldy individualized damages  
12 formula, especially in light of the fact that many Fuel Economy Class Vehicles during this 21-  
13 year period were subject to a range of higher or lower gas prices across different states at different  
14 points in time. *See, e.g., In re Volkswagen “Clean Diesel”*, No. 15-md-2672, Dkt. 3229 (Order  
15 granting final approval of 3.0L settlement, and reasoning “a settlement that attempted to  
16 compensate consumers on an individual basis . . . would require so many individualized  
17 assessments that the cost and difficulty of administering it would necessarily result in fewer  
18 benefits than the proposed Class-wide Settlement.”). As such, this compensation formula will pay  
19 all Fuel Economy Class members a very high percentage of their recoverable damages (and the  
20 vast majority of them 100% of damages).<sup>10</sup> *See, e.g.,* Dkt. 6634-3, Declaration of Edward M.

21 \_\_\_\_\_  
22 <sup>9</sup> As to the \$3.54 per gallon price in the Audi CO<sub>2</sub> Settlement, Mr. Stockton opined in 2019 that it  
23 compared favorably to the average retail price of premium gasoline from 2014 to 2019. Dkt.  
24 6634-3 at ¶ 20. Here, the \$3.54 per gallon price has been increased to \$3.97 to account for  
25 inflation in the intervening years.

26 <sup>10</sup> For most of the Fuel Economy Class Vehicles, the 96 months of fuel usage for which they will  
27 be compensated has already concluded. For these vehicles, the \$3.97 premium fuel price  
28 conservatively estimates the average amount that the Fuel Economy Class Members paid at the  
pump over time and provides full compensation for the damages incurred. However, for a small  
subset of Fuel Economy Class Vehicles first sold or leased fewer than 96 months ago (*i.e.* model  
years 2015 and onward, which make up approximately 18% of the affected vehicles), the 96  
months eligible for compensation is ongoing and will include the current surge in fuel prices in  
the summer of 2022. An extended period of unusually high fuel prices in the coming years,  
without reprieve, could interfere with the intention to provide full compensation on fuel prices for  
this subset of vehicles. Because the parties cannot predict the uncertainty of future gas prices and

1 Stockton, (opining that analogous compensation framework provided “full” compensation for  
 2 class members’ damages in a comparable fuel economy settlement). It is nearly identical to that  
 3 approved by the Court in the similar Audi CO<sub>2</sub> Fuel Economy matter, with the exception that the  
 4 gas price was increased from \$3.54 to \$3.97 to account for inflation in the years after that  
 5 settlement. *See In re Volkswagen “Clean Diesel”*, No. 15-md-2672, Dkts. 6764, 7244.

6 The compensation for Sport+ and Other Class Vehicles is similarly significant, including  
 7 a cash benefit of \$250 to Sport+ Class members to incentivize and compensate them for the time  
 8 in bringing their Class Vehicles to a dealership to receive the ECR, and a payment of up to \$200  
 9 per vehicle to compensate Other Class Vehicle Class members whose vehicles conceivably could  
 10 have been impacted by the conduct at issue, but for which no deviations were identified through  
 11 the comprehensive testing program that the Parties believe covered all potentially impacted  
 12 vehicles. This is an exceptional result for the compromise of contested claims that have not yet  
 13 survived a motion to dismiss.

14 **a. The Settlement mitigates the risks, expenses, and delays the**  
 15 **Class would bear with continued litigation.**

16 The Settlement benefits (described above) are even more impressive given the inherent  
 17 uncertainties of continued litigation and the inevitable delay that would accompany it. Even if the  
 18 Settlement had secured something less than actual damages, compromise of potential recovery in  
 19 exchange for certain and timely provision of the benefits under the Settlement is an  
 20 unquestionably reasonable outcome. *See Nobles v. MBNA Corp.*, No. C 06-3723 CRB, 2009 WL  
 21 1854965 at \*2 (N.D. Cal. June 29, 2009) (“The risks and certainty of recovery in continued  
 22 litigation are factors for the Court to balance in determining whether the Settlement is fair.”);  
 23 *Kim v. Space Pencil, Inc.*, No. C 11-03796 LB, 2012 WL 5948951, at \*5 (N.D. Cal. Nov. 28,  
 24 2012) (“The substantial and immediate relief provided to the Class under the Settlement weighs  
 25 heavily in favor of its approval compared to the inherent risk of continued litigation, trial, and  
 26 appeal, as well as the financial wherewithal of the defendant.”).

27 \_\_\_\_\_  
 28 global disruptions in the fuel supply chain, the \$3.97 figure—which is based on historic averages  
 and adjusted for inflation—remains a fair and practicable way to approximate the fuel costs for  
 these vehicles as well.

1 This case, like those cited above, is not without risk. Defendants moved to dismiss the  
2 Consolidated Complaint, and there is little doubt they would raise similar arguments against the  
3 now-operative Amended Complaint should the litigation proceed. The motion to dismiss is not  
4 yet decided, and the outcome of those motions was far from certain.

5 For example, one of the central arguments of Defendants' motion to dismiss is that  
6 Plaintiffs' claims about misleading fuel economy representations are preempted by the  
7 Environmental Policy and Conservation Act ("EPCA") as enforced by the Federal Trade  
8 Commission ("FTC"). A recent decision from the Eastern District of Michigan credited a similar  
9 argument in a fuel economy manipulation case and concluded that plaintiffs' claims based on  
10 EPA fuel economy estimates were both expressly and impliedly preempted by the EPCA. *See In*  
11 *re Ford Motor Co. F-150 & Ranger Truck Fuel Econ. Mktg. & Sales Pracs. Litig.*, No. 2:19-MD-  
12 02901, 2022 WL 551221, at \*12 (E.D. Mich. Feb. 23, 2022). Plaintiffs respectfully submit that  
13 the better-reasoned authority rejects these arguments, including for the reasons articulated in  
14 Plaintiffs' opposition brief (*see* Dkt. 7884 at 19-28); *see also, e.g., In re Toyota Rav4 Hybrid Fuel*  
15 *Tank Litig.*, 534 F. Supp. 3d 1067, 1095 (N.D. Cal. 2021) (rejecting EPCA/FTC preemption  
16 where plaintiffs alleged that failure to obtain advertised mileage range was due to diminished fuel  
17 tank capacity). Nonetheless, the recent decision from the Eastern District of Michigan stands to  
18 show that Defendants' preemption arguments are not without merit.

19 Success on Plaintiffs' individual state-law claims is likewise not guaranteed. Indeed,  
20 courts have dismissed similar state-law claims in recent automotive cases. *See, e.g., id.* at 1118  
21 (dismissing Deceptive Trade Practices Act claims from Ohio based on conclusion that statute  
22 does not confer standing on consumers, and Nebraska and Oklahoma given an exemption under  
23 those statutes to claims based on vehicle advertising); *Gant v. Ford Motor Co.*, 517 F. Supp. 3d  
24 707, 719 (E.D. Mich. 2021) (dismissing Michigan Consumer Protection Act claim and  
25 concluding that motor vehicle sales and lease transactions are not covered by the statute); *In re*  
26 *Chrysler-Dodge-Jeep EcoDiesel Mktg., Sales Practices & Prods. Liab. Litig.*, 295 F. Supp. 3d  
27 927, 1027 (N.D. Cal. 2018) (dismissing plaintiffs' common law fraud claims, and various other  
28 state-law claims for lack of privity and failure to obtain approval of state attorneys general);

1 *Counts v. Gen. Motors, LLC*, 237 F. Supp. 3d 572, 594 (E.D. Mich. 2017) (similar). Plaintiffs  
2 would likely face these same challenges, and others, here.

3 Finally, while Plaintiffs have not moved to certify a litigation class, that process would be  
4 expensive, lengthy, and, again, uncertain. Avoiding years of additional, risky litigation in  
5 exchange for the immediate and significant cash payments is a principled compromise that works  
6 to the clear benefit of the Class.

7 **b. Class members will obtain relief through a straightforward**  
8 **claims process.**

9 The Parties were exacting and intentional in their efforts to ensure that the claims process  
10 will be straightforward and efficient. Class members will be able to select streamlined forms of e-  
11 payments, including through Venmo, PayPal, and other forms of online transfer. For Fuel  
12 Economy and Other Class Vehicles, Class members need only submit a short claim form online or  
13 by mail with basic documentation sufficient to establish their ownership or lease of a Class Vehicle  
14 and the duration for which they did so (*e.g.*, purchase agreement, sale documentation, and/or proof  
15 of current registration). No further action is required. Fuel Economy and Other Class members who  
16 have submitted a complete and valid claim will receive compensation after the Fuel Economy  
17 Claims Deadline, which is 120 days from the entry of the Preliminary Approval Order. SA ¶ 2.6.  
18 Sport+ Class members will receive compensation *automatically* after completing an ECR in their  
19 vehicle, for a period of eighteen months from the Preliminary Approval Order, to allow sufficient  
20 time for completion of the ECR. SA ¶ 2.6.<sup>11</sup> The effort required and safeguards incorporated in  
21 this process are proportional to the compensation available, and necessary and appropriate to  
22 preserve the integrity of the Claims Program.

23 **c. Counsel will seek reasonable attorneys' fees and costs.**

24 Settlement Class Counsel will move for an award of reasonable attorneys' fees and  
25 reimbursement of their litigation expenses for work performed and expenses incurred in  
26 furtherance of this litigation pursuant to Pretrial Orders 7 and 11. Fed. R. Civ. P. 23(e)(2)(C)(iii).

27 <sup>11</sup> For the small population of Sport+ Class Members for whom an ECR has not yet been formally  
28 approved by the regulators, this group will receive notice of the need to submit a claim form.  
Should approval of the ECR occur prior to the conclusion of the Claims Period, they too will  
receive payments automatically without the need to submit a claim.

1 Settlement Class Counsel currently anticipate requesting that the Court award a total of 30% of  
2 the non-reversionary Settlement Fund in attorneys' fees, plus expenses (*i.e.*, approximately \$25.1  
3 million). As a percentage of the \$85 million total compensation available to the Class, the  
4 anticipated fee request will represent 28% of the settlement fund. This request is within the range  
5 regularly approved in common fund settlements in this Circuit. *See, e.g., Vizcaino v. Microsoft*  
6 *Corp.*, 290 F.3d 1043, 1047 (9th Cir. 2002) (observing that Ninth Circuit cases support that  
7 between 20 and 30 percent of the settlement common fund in attorneys' fees is within the "usual  
8 range"); *Hernandez v. Dutton Ranch Corp.*, No. 19-CV-00817-EMC, 2021 WL 5053476, at \*6  
9 (N.D. Cal. Sept. 10, 2021) (collecting cases and finding that "[d]istrict courts within this circuit,  
10 including this Court, routinely award attorneys' fees that are one-third of the total settlement fund  
11 . . . [s]uch awards are routinely upheld by the Ninth Circuit.").

12 Settlement Class Counsel will file their fee application, which will provide the supporting  
13 basis for their request, at least 35 days in advance of the Objection Deadline, and it will be  
14 available on the Settlement Website after it is filed. Any attorneys' fees and expenses awarded by  
15 the Court will be paid from the Settlement Fund following the Effective Date of the Settlement.  
16 Based on their preliminary review, Class Counsel's total combined hours in this case through  
17 April 30, 2022 are approximately 28,935 hours, for a total combined lodestar of approximately  
18 \$13,056,461 during that period. The total combined litigation expenses in this case through April  
19 30, 2022 are approximately \$1,070,617. Based on the above numbers, a fee and expense award  
20 equal to 30% of the Settlement Fund plus costs, after subtracting the expenses portion, would  
21 represent a 1.84 multiplier on Settlement Class Counsels' approximate lodestar. Settlement Class  
22 Counsel will continue to incur time in seeking settlement approval and on implementation efforts  
23 should the Settlement be approved. Class Counsel will continue to review their respective  
24 records, and will provide additional information regarding time and expenses and rationale for  
25 their request in the fee application and in the class notice, so that Class members will have the  
26 opportunity to comment on or object to the requested fees prior to the final approval hearing.<sup>12</sup>

27 \_\_\_\_\_  
28 <sup>12</sup> Finally, there are no agreements between the Parties other than the Settlement. *See Fed. R.*  
*Civ. P. 23(e)(3)* ("the parties seeking approval must file a statement identifying any agreement  
made in connection with the proposal").

1                   **4. Rule 23(e)(2)(D): The Proposed Settlement treats all Class members**  
2                   **equitably relative to one another.**

3                   The proposed Settlement fairly and reasonably allocates payments among the Class  
4 members tailored to the impact on their Class Vehicles. For Fuel Economy Class Vehicles, a  
5 straightforward formula tied to the duration of possession of the Class Vehicle and the original  
6 and amended mileage ratings for each particular Class Vehicle make and model. The formula for  
7 calculating the maximum compensation for each Class Vehicle is described above (*see* § V.C.3)  
8 and further explained in the Long Form Notice. Keough Decl., Exhibit B.

9                   Fuel Economy Class members who are the original owners of their Vehicles and  
10 continued to own them for 96 months thereafter will receive the maximum compensation for that  
11 Vehicle. All other Fuel Economy Class members will receive compensation under the same  
12 formula, but prorated to account for the months that they owned or leased their Class Vehicles.  
13 Prorating will occur only in instances where multiple valid claims are filed on the same Class  
14 Vehicle; where only one timely and valid claim is filed for a particular Class Vehicle, the  
15 compensation will cover the full 96 months. Fuel Economy Class members who purchased their  
16 Vehicles used, but owned them as of the date this Motion is filed, will be entitled to compensation  
17 for the months they have owned their Class Vehicles, as well as any remaining months up to a  
18 total of 96 months after their Class Vehicles were first sold. Where a Class Vehicle has had  
19 multiple owners, but only one owner submits a valid claim, the full value of the compensation  
20 will not be prorated and will be distributed to the sole claimant for that vehicle.

21                   Likewise, for Other Class Vehicles, Other Class Vehicle Class members who are the  
22 original and sole owners of their vehicles will receive the maximum compensation for that  
23 vehicle. All others will receive compensation under the same formula, divided by the numbers of  
24 owners associated with a particular VIN. Finally, for Sport+ Class Vehicles, all Sport+ Class  
25 members who take their vehicle in for an ECR by the ECR deadline will automatically receive the  
26 same payment of \$250.

27                   This system of calculating payment values in monthly increments, and based on the  
28 degree of impact in a particular Class Vehicle make, model, and year, uses transparent and

1 objective criteria to determine Class Member payments. These reasonable parameters ensure that  
 2 the Settlement treats Class members equitably relative to one another. *See* Fed. R. Civ. P.  
 3 23(e)(2)(D); *see also In re Hyundai & Kia Fuel Econ. Litig.*, No. MDL 13-2424-GW(FFMx),  
 4 2014 WL 12603199 at \*2 (C.D. Cal. Aug. 21, 2014) (granting preliminary approval of similar  
 5 settlement, where payment amounts for each make and model ranged from \$240 to \$1,420 and  
 6 were “correlated to the amount of the fuel economy misstatements” and thus “differences  
 7 between the recovery amounts stem[med] mostly from differences in the damages suffered . . .  
 8 rather than any improper favoring of one group of Class members over another.”).

9 **5. The Proposed Settlement merits approval under this District’s**  
 10 **Procedural Guidance.**

11 The Northern District’s Procedural Guidance for Class Action Settlements provisions  
 12 relevant to this Agreement are addressed below. The discussion in other sections of this brief  
 13 provides relevant information regarding (and is equally applicable to) Procedural Guidance 1(f)  
 14 on the settlement allocation plan (*see* Section V.C.3); Procedural Guidance 2 on notice and claims  
 15 administrator selection (See Section III.C); Procedural Guidance 6 on attorneys’ fees and costs  
 16 (*see* Section V.C.3.c); and Procedural Guidance 9 (*see* Section V.C.3.c). The remaining  
 17 applicable provisions—all of which favor approval of the proposed Settlement—are addressed  
 18 below.

19 **a. Preliminary Approval Guidance (1)(a) and (c): There are no**  
 20 **meaningful differences between the litigation and Settlement**  
 21 **Classes, and the released claims are consistent with those**  
 22 **asserted in the Complaint.**

23 Where a litigation class has not been certified, the Guidance instructs a party to explain  
 24 differences between the settlement class and claims to be released compared to the class and  
 25 claims in the operative complaint. *See* Procedural Guidance, Preliminary Approval (1)(a), (1)(c).  
 26 Here, the proposed Settlement Class is essentially identical to the class in the Amended  
 27 Complaint. Am. Compl. ¶ 258. The Settlement Class closes the class period, with a backstop as  
 28 of the date of filing for Preliminary Approval for most Class members,<sup>13</sup> and treats Class

<sup>13</sup> Sport+ Class Members who obtain a Sport+ Class Vehicle after settlement approval, but before

1 members equitably according to the duration of their possession of the Class Vehicle, and/or  
 2 whether their Class Vehicle will receive a software reflash for the Sport+ ECR. This minor  
 3 refinement in the definition of the Settlement Class is appropriate to facilitate a principled and  
 4 equitable Settlement, and reflects the fact that those who purchase or lease a Class Vehicle after  
 5 the filing of this motion will—both through this litigation and through the disclosures that are to  
 6 be amended on [www.fueleconomy.gov](http://www.fueleconomy.gov)—do so with full notice of the allegations resolved herein.

7 Finally, the claims released in the Settlement are limited to those arising out of the  
 8 “subject of the Complaint” including the Sport+ Matter and Fuel Economy Matter, which covers  
 9 the emissions and fuel economy practices alleged in the Complaint, the marketing of fuel  
 10 economy for the Class Vehicles, and the “the subject matter of the Action.” SA ¶ 10.3. Thus, the  
 11 claims at issue in the operative Amended Complaint and those released in the Settlement are  
 12 substantially the same, if not identical.

13 **b. Preliminary Approval Guidance (1)(e): The Settlement**  
 14 **Recovery mirrors that available if Plaintiffs had prevailed in**  
 15 **litigation on the merits.**

16 The Guidance instructs a party to address the “anticipated class recovery under the  
 17 settlement, the potential class recovery if plaintiffs had fully prevailed on each of their claims,  
 18 and an explanation of the factors bearing on the amount of the compromise.” *See* Procedural  
 19 Guidance, Preliminary Approval (1)(e). These considerations are addressed in Section V.C.3,  
 20 above. To recap, many Class members stand to receive *full* compensation for the Class Vehicles  
 21 impacted by the Fuel Economy matter (with at least a very high percentage for the remainder);  
 22 the benefits available for Other Class Vehicle and Sport+ are likewise substantial and meaningful  
 23 compensation for the harms alleged, and to incentivize Sport+ Class members to bring their  
 24 vehicles in for the ECR.

25 In sum, the Settlement secures compensation that meets or significantly exceeds virtually  
 26 all Class members’ actual damages in compromise for contested and uncertain claims that, if  
 27 litigated to their conclusion, would not have resolved for several more years.

28 \_\_\_\_\_  
 the ECR deadline, are not subject to this backstop, and instead have until the Sport+ ECR  
 deadline to obtain compensation.

1                   **c. Preliminary Approval Guidance (1)(g): A substantial number**  
 2                   **of Class members are expected to participate through a**  
 3                   **streamlined claims program.**

4                   The Settlement, the Notice Plan, and the Claims process are all designed to maximize  
 5                   Class member participation and to ensure maximal recovery in the hands of individual Class  
 6                   members. Sport+ benefits will be distributed through a streamlined auto-payment system upon  
 7                   completion of the Sport+ ECR, and will require no further action from Class members. Fuel  
 8                   Economy and Other Class Vehicle compensation will be available through a simple claim form  
 9                   supported by common documents minimally necessary to establish eligibility. The amount of  
 10                  compensation available to Class members, on the other hand, is considerable. Furthermore,  
 11                  Defendants are not incentivized to minimize participation because the \$80 million Settlement  
 12                  Value is fixed at the outset and non-reversionary, and any unclaimed monies will be redistributed  
 13                  to Class members, and then otherwise put toward environmental remediation efforts, subject to  
 14                  the Court’s approval.<sup>14</sup> Given all of the above, the Parties anticipate a high participation rate.

15                   **d. Preliminary Approval Guidance (1)(h) & (8): Unclaimed**  
 16                   **Settlement funds will be redistributed to Class members and**  
 17                   **then to environmental remediation efforts and will not revert to**  
 18                   **Defendants.**

19                  As discussed above, unclaimed Settlement funds (if any) that are not paid directly to Class  
 20                  members will not revert to Defendants. SA ¶ 4.4. Instead, they will first be redistributed to Class  
 21                  members who submit timely and valid claims until it is economically infeasible to do so. Only  
 22                  then will any remaining funds be directed toward “environmental remediation efforts”—  
 23                  approved by the Court—that are consistent with “(1) the objectives of the underlying statute(s)  
 24                  and (2) the interests of the silent class members.” *Nachshin v. AOL, LLC*, 663 F.3d 1034, 1039  
 25                  (9th Cir. 2011). This Settlement provision ensures that all parties are properly motivated to  
 26                  compensate as many Class members as possible and that all the Settlement funds will benefit the  
 27                  Class. *In re Volkswagen “Clean Diesel” Mktg., Sales Practices, & Prods. Liab. Litig.*, No. 2672  
 28                  CRB (JSC), 2017 WL 672820, at \*3 (N.D. Cal. Feb. 16, 2017) (granting preliminary approval of

<sup>14</sup> Defendants have agreed to contribute an additional \$5 million to the Settlement Value in the event that allocation to Other Class Vehicles is less than \$150, but this amount is reserved only to supplement the agreed-to \$80 million settlement fund, which will not revert to the Defendants in any circumstance.

1 Bosch “Clean Diesel” settlement, including provision that remaining funds not distributed to the  
2 class would be “distributed through *cy pres* payments according to a distribution plan and  
3 schedule filed by Class Counsel and approved by the Court”). If there are remaining funds after  
4 initial and subsequent distributions to individual Class members, the Parties’ selection of *cy pres*  
5 recipients (if any) will be announced on the Settlement Website—as explained in the Long Form  
6 Notice.

7 **e. Preliminary Approval Guidance (3)-(5): The proposed Notice**  
8 **Plan comports with Rule 23, Due Process, and this District’s**  
9 **Procedural Guidance.**

10 As detailed below (§ V.D) and in the accompanying Keough Declaration, the notice  
11 program comports with the best-practices outlined in the Procedural Guidance. *See* Preliminary  
12 Approval Guidance (3). It also explains Class members’ rights to opt-out of or object to the  
13 Settlement, and provides clear instructions for how and when to exercise those rights. *See*  
14 Preliminary Approval Guidance (4)-(5).

15 **f. Preliminary Approval Guidance (7): Plaintiffs will seek modest**  
16 **incentive awards for the Settlement Class Representatives.**

17 The Settlement Class Representatives will be entitled to the same compensation,  
18 calculated under the same formula, as all other Settlement Class members. In addition, Class  
19 Counsel intends to seek Court approval for modest service awards of up to \$250 to compensate  
20 the Settlement Class Representatives for their time and efforts in prosecuting claims on behalf of  
21 the Class.

22 **g. Preliminary Approval Guidance (9): The Parties have proposed**  
23 **a reasonable schedule for the Settlement Approval Process that**  
24 **provides Class members sufficient time to exercise their rights.**

25 The last step in the settlement approval process is the fairness hearing, at which the Court  
26 may hear any evidence and argument necessary to evaluate the Settlement and the application for  
27 attorneys’ fees and costs. The Parties propose a detailed schedule for final approval and  
28 implementation in the attached Proposed Order and Plaintiffs incorporate it by reference herein.

1                                    **h. Preliminary Approval Guidance (10): The Settlement complies**  
 2                                    **with the Class Action Fairness Act (“CAFA”).**

3                    Pursuant to the Settlement Agreement, Defendants will serve notices in accordance with  
 4 the requirements of 28 U.S.C. § 1715(b) within ten days of the filing of this motion. SA ¶ 9.2.  
 5 The Settlement fully complies with all of CAFA’s substantive requirements because it does not  
 6 provide for a recovery of coupons (28 U.S.C. § 1712), does not result in a net loss to any Class  
 7 Member (28 U.S.C. § 1713), and does not provide for payment of greater sums to some Class  
 8 members solely on the basis of geographic proximity to the Court (28 U.S.C. § 1714).

9                                    **i. Preliminary Approval Guidance (11): Information about past**  
 10                                    **distributions in comparable class settlements.**

11                    Pursuant to the Guidance, Plaintiffs provide an “easy-to-read” chart detailing certain  
 12 information about comparable settlements in the attached Stellings Declaration. Stellings Decl.,  
 13 Attachment 1. The settlements are four settlements that were previously negotiated by Class  
 14 Counsel in this MDL: the 2.0-liter settlement (Dkt. 1685), the 3.0-liter settlement (Dkt. 2894), the  
 15 Bosch settlement (Dkt. 2918), and the Audi CO<sub>2</sub> settlement reached most recently (Dkt. 6634-1).  
 16 As the chart shows, those settlements have delivered more than **\$10 billion** in compensation to  
 17 the classes. Stellings Decl., Attachment 1.

18                    The Settlement now before the Court will utilize a similar notice and outreach program,  
 19 provides substantial compensation, and utilizes a simplified administration. Class Counsel are  
 20 therefore able to predict with some confidence that much of the money available to Class  
 21 members will be paid out in this case as well. And notably, to the extent money remains after the  
 22 Class is paid, it too will be redistributed to Class members, and only then directed towards efforts  
 23 that benefit the interests of the Class and the causes advanced in this litigation.

24                    **D. The Proposed Notice Plan provides the best practicable notice.**

25                    Rule 23(e)(1) requires that before a proposed settlement may be approved, the Court  
 26 “must direct notice in a reasonable manner to all class members who would be bound by the  
 27 proposal.” “Notice is satisfactory if it ‘generally describes the terms of the settlement in sufficient  
 28 detail to alert those with adverse viewpoints to investigate and come forward and be heard.’”

1 *Churchill Vill., L.L.C., v. Gen. Elec.*, 361 F.3d 566, 575 (9th Cir. 2004). For a Rule 23(b)(3)  
2 Settlement class, the Court must “direct to class members the best notice that is practicable under  
3 the circumstances, including individual notice to all members who can be identified through  
4 reasonable effort.” Fed. R. Civ. P. 23(c)(2)(B). The best practicable notice is that which is  
5 “reasonably calculated, under all the circumstances, to apprise interested parties of the pendency  
6 of the action and afford them an opportunity to present their objections.” *Mullane v. Cent.*  
7 *Hanover Bank & Trust Co.*, 339 U.S. 306, 314 (1950).

8 The proposed Notice Plan meets these standards. The Parties created this proposed  
9 program—including both the content and the distribution plan—with JND Legal Administration,  
10 an experienced firm specializing in notice in complex class action litigation. The program  
11 includes a Long and Short Form Notice and a comprehensive Settlement Website that are clear  
12 and complete, and that meet all the requirements of Rule 23 and the Procedural Guidance.

13 The Long Form Notice is designed to explain Class members’ rights and obligations under  
14 the Settlement in clear terms and in a well-organized and reader-friendly format, and follows the  
15 Ninth Circuit’s *en banc* guidance in *In re Hyundai*. 926 F.3d at 567 (“[S]ettlement notices must  
16 ‘present information about a proposed settlement neutrally, simply, and understandably.’”); *see*  
17 *also* Keough Declaration, Exhibit B. It includes an overview of the litigation; an explanation of  
18 the Settlement benefits; contact information for Class Counsel; the address for a comprehensive  
19 Settlement Website that will house links to the notice, motions for approval, attorneys’ fees, and  
20 other important documents; instructions on how to access the case docket; and detailed  
21 instructions on how to participate in, object to, or opt out of the Settlement. *Id.* The Settlement  
22 Website will also feature a user-friendly calculator for potential Class members to enter their VIN  
23 and obtain an estimated payment from the Settlement.

24 The principal method of reaching Class members will be through direct, individual notice,  
25 consisting of individual email notices where email contact information validated by third-party  
26 data sources is available, and letter notices by U.S. first class mail to those Class members for  
27 whom externally-validated email addresses are not available. *Id.* ¶ 13, 17; Exhibits D, E. The  
28 Email notice conveys the structure of the Settlement and is designed to capture Class members’

1 attention with concise, plain language. The email notice program was designed specifically to  
 2 avoid spam filters and to be easily readily across all formats, including mobile. Keough Decl.  
 3 ¶¶ 21-22. The mailed notice is similarly structured and provides all basic information about the  
 4 Settlement and Class members' rights thereunder. Both forms of Short Form Notice (email and  
 5 letter) direct readers to the Settlement Website, where the Long Form Notice is available, for  
 6 more information.

7 Finally, the notice program will include a robust supplement digital notice campaign  
 8 including digital banner advertisements through Google Display Network, a digital search  
 9 campaign, a toll-free telephone number, and a Settlement Website. *Id.* ¶¶ 29-35. Based on her  
 10 considerable experience, Ms. Keough anticipates that the Notice Plan will provide direct notice of  
 11 the settlement for "virtually all" Class members. *Id.* ¶ 27. This Notice Plan satisfies due process  
 12 and Rule 23, and comports with all accepted standards and this District's Procedural Guidance.

## 13 **VI. CONCLUSION**

14 Plaintiffs respectfully request that the Court: (1) determine under Rule 23(e)(1) that it is  
 15 likely to approve the Settlement and certify the Settlement Class; (2) direct notice to the Class  
 16 through the proposed notice program; (3) appoint Lead Plaintiffs' Counsel as Interim Settlement  
 17 Class Counsel to conduct the necessary steps in the Settlement approval process; and (4) schedule  
 18 the final approval hearing under Rule 23(e)(2).

19 Dated: June 15, 2022

Respectfully submitted,

21 /s/ Elizabeth J. Cabraser
